

COMPARE TWO CITIES:

TURÍN, ITALY AND CÓRDOBA, ARGENTINA

A picture of Turín

A picture of Córdoba

Turín is in the north of Italy and Córdoba is in the centre of Argentina, they are "sister cities", that is they follow an international agreement that promotes peace through mutual respect, understanding, and cooperation.

(If the students live in Córdoba, Argentina this information is relevant since it deals with their city. Pupils should search for information and then express comparisons either in an oral presentation or written statements to be published on the bulletin board of the school)

CÓRDOBA IS BIGGER THAN TURÍN.
TURÍN IS COLDER THAN CÓRDOBA.
