Quality of care framework

Quality improvement (QI)

1. Establish QI leadership group
(Review guidelines & standards of care)

2. Situation analysis/assessment of priorities & process

3. Prioritise problems and list QI interventions

4. Identify QI intervention to test and bring together QI team to carry out testing

Learning system
Plan, **D**o, **S**tudy, **A**ct

5. **Plan**

For each QI intervention

8. **Act**

6. **Do** (Implement)

7. **Study** (Measure quality indicators and outcomes)

Decision making

Adapt	Adopt	Abandon
Refine strategies	Scale up	Try another QI intervention
