

WEATHER FORECAST GAME: WEEK 1 RESULTS

How did you do in the Forecasting Game in Week 1? You can see the results of this week's forecasting game here.

The correct answers were:

Minimum temperature: 14.3°C

Maximum temperature: 22.3°C

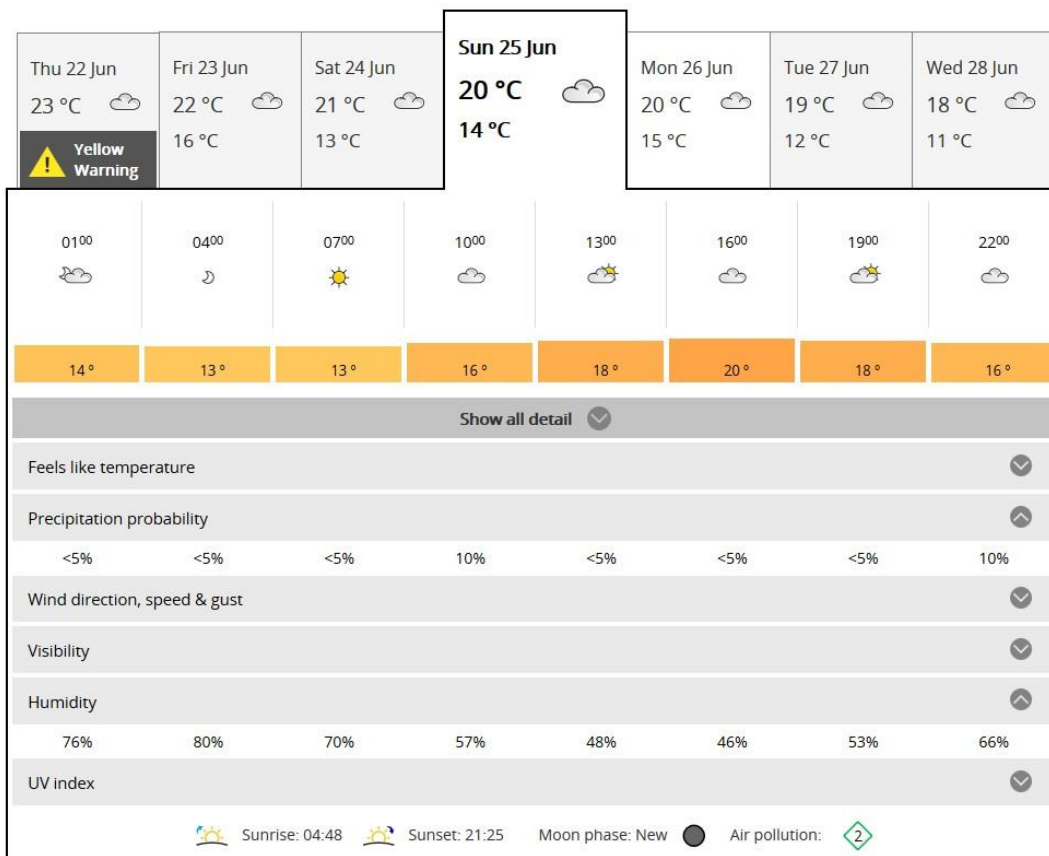

Rainfall: 0 mm

Relative Humidity at midday: 70%

In general, the scores were low, reflecting a day when the forecast was tricky. For example, the relative humidity changed by almost 10% in a very short period of time, and it could have rained a little, but didn't. The maximum possible score is 16.

Can you try and do better in week 2?
