

## Guide to making a film at home

### PRE-PRODUCTION

#### STORY

Think of a topic. It can be:

- about a subject that interests you
- a story you already know
- a story you create

**TIP:** Keep it short!

#### CHARACTERS

Decide who will be in your movie and what they will do.

#### SCRIPT

Plan what your characters will do or say.

### PRODUCTION

#### FILMING

Record your film on a:

- phone
- tablet
- digital camera

**TIP 1:** Keep your camera landscape (on its side).

**TIP 2:** Use the top 5 tips sheet to help you

You can use record and playback (recording the film in one long take).

OR

You can record the different scenes in your film and play them back in order.

### SHOWCASE

#### SHOWCASE

You can watch your film on your phone, tablet, or digital camera or you can connect your device to a computer or TV to see it on a larger screen.

#### EVALUATE

Talk about your film with others.

Think about what worked well or what you would do differently next time.
