

CONTRIBUTORS

	Name	Position	Expertise
	Dr. Marie Dittmann	Research Associate.	Feeding, digestion and methane production of herbivores
	Dr. Martin Lukac	Associate Professor in Ecosystem Science, School of Agriculture, Policy and Development, University of Reading	Ecosystem productivity, carbon cycling and the link between diversity and stability

	<p>Dr Matthieu Arnoult</p>	<p>Research Fellow in Agri-Environment, School of Agriculture, Policy and Development, University of Reading</p>	<p>The CSA Booster project</p>
	<p>Dr. Jake Bishop</p>	<p>Lecturer in Crop Science and Production, School of Agriculture, Policy and Development, University of Reading</p>	<p>Abiotic stress, and the use of beneficial insects to increase agricultural productivity and resilience to climate change</p>
	<p>Paulo Capece</p>	<p>Phenologist, agrometeorologist and landscaper designer. Regional Agency for environmental protection of Sardinia (ARPAS), Italy</p>	<p>Phenology, wine production, development of vineyards</p>

	<p>Dr Graham Clarkson</p>	<p>Research Fellow in International Development, School of Agriculture, Policy and Development, University of Reading</p>	<p>The PICSA project</p>
	<p>Dr. Camilla Chieco</p>	<p>Post-doctoral Fellow at the National Research Council of Italy, Institute of Biometeorology, IBIMET, Italy</p>	<p>Policies related to CSA, eg the CAP</p>
	<p>Dr Peter Dorward</p>	<p>Associate Professor in Agriculture, School of Agriculture, Policy and Development, University of Reading</p>	<p>The PICSA project</p>

	<p>Dr. Thomas B Long</p>	<p>Postdoctoral Fellow in Responsible Innovation and Business Models for Sustainability, Wageningen University, the Netherlands</p>	<p>Barriers to adopting CSA and value chains</p>
	<p>Professor Simon Mortimer</p>	<p>Associate Professor in Agri-Environment, School of Agriculture, Policy and Development, University of Reading</p>	<p>Food security and agriculture</p>
	<p>Professor Chris Reynolds</p>	<p>Group Head of Animals, Dairy and Food Chain Sciences; Deputy Head of School; Director of Centre for Dairy Research; Professor of Animal and Dairy Science, School of Agriculture, Policy and Development, University of Reading</p>	<p>Dairy production and nutrition</p>

	<p>Dr. Neli Prota</p>	<p>Knowledge valorisation manager for Climate Smart Agriculture</p> <p>Responsible for the Education and Extension service of the CSA booster, Wageningen University</p>	<p>Fertilisers, Pesticides and CSA in general</p>
	<p>Dr. Jean Marc Touzard</p>	<p>Director of Research at the French National Institute for Agriculture Research (INRA), France</p>	<p>Innovation and adaptations to climate change in the wine industry</p>
	<p>Dr. Nicola Di Virgilio</p>	<p>Researcher at the National Research Council of Italy, Institute of Biometeorology, IBIMET, Italy</p>	<p>Policies related to CSA, eg the CAP</p>
