

WEATHER FORECAST GAME: WEEK 3 RESULTS

How did you do in the Forecasting Game in Week 3?

The correct answers were:

Minimum temperature: 1.2°C

Maximum temperature: 5.6°C

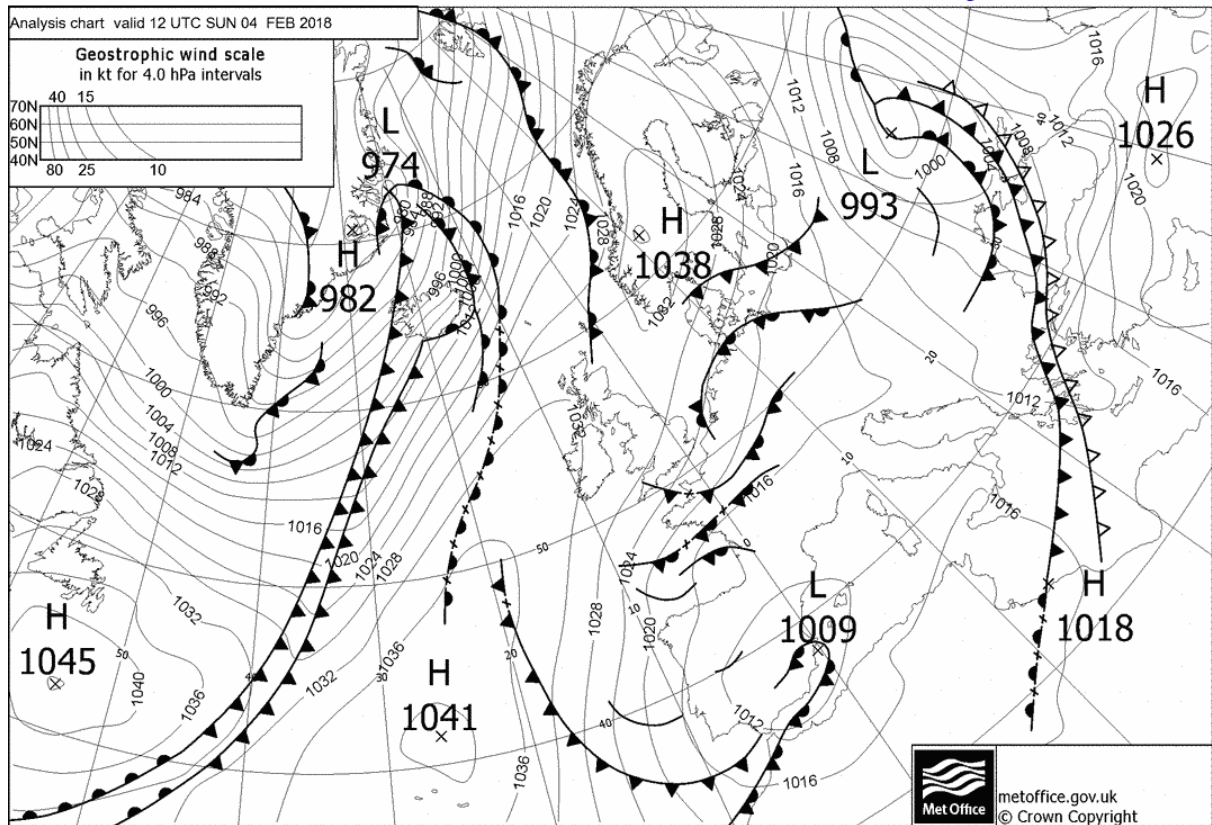

Rainfall: 0mm

Relative Humidity at midday (UTC/ GMT): 69%

Again, several people did extremely well this week. The maximum possible score is 16 and the minimum is -16.

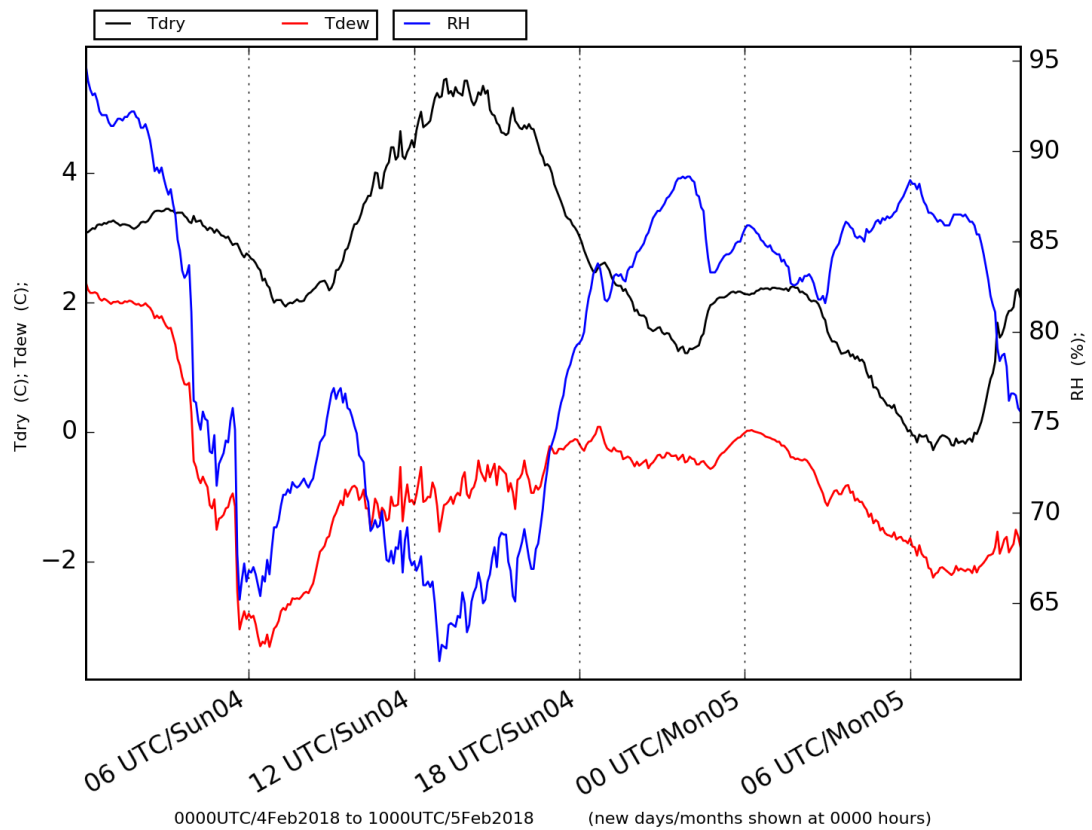

It was a cold, mostly clear day after a couple of weak fronts passed in the morning, with pressure building through the day. As the air temperature rose, the relative humidity dropped.

We hope that you have enjoyed this opportunity to put your weather knowledge into practice, and that you have seen your understanding improve through the course – even if this wasn't reflected in your scores!
