#### Mission X: train like an astronaut

CATEGORY: STEM AMBASSADOR

Mission X is supported by the UK Space Agency, ESA and NASA. It is a free education programme developed by NASA scientists and fitness professional working with astronaut and space agencies across the world. Mission X uses the excitement of space exploration to inspire students to learn more about nutrition, exercise...

Clear all filters

#### Filter by subject

- Cross curricular (1)
- Science (1)

#### Filter by age

- 7-11

1. Go to the **STEM Resources** website <https://www.stem.org.uk/resources>
2. Type into the **search box** at the top of the page, e.g. 'space'.
3. Beneath the search box, select **Show eLibrary resources**.
4. Under **Filter by age** on the right hand side of results, select the age group you are working with, e.g. '7-11'.
5. Under **Filter by type** select 'STEM Ambassador'.
6. Click the title of the resource you wish to use.
7. Files for the resource are available halfway down the resource page.

In step 5 above, you may wish to explore other types of resource. However, those designed for STEM Ambassadors feature in the [specific search filter](#).
