### 1. Get involved

Hi I'm Liz Wilding, and I'm part of the Educator team for this British Council MOOC. In this Step I'm going to share our top 7 tips to help you get the most out of the course. Our courses are all about social learning and interacting with people from all over the world, and so my first tip is quite simple: just **get involved**. In each step of the course, we will ask you for your ideas and opinions, so please respond where you can. Just add your ideas to the Comments section at the end of each Step. You can also reply to other people's comments. It's a great way to interact with others and feel part of the course. Don't worry about your English or about your ideas –we all want to hear from each other and share out thoughts. Here are some more top tips.
